- **Operating System** : Windows & Linux
- **Other software's** : Corel Draw, Photoshop

ACADEMIC PROJECT

1- Collage Website

- a. Team Size: 1
- b. Front End : Html, Css
- c. Back End : SQL Server

I worked on this project during first year of my graduation. The website intended for applicants who were interested in the course offered by college and provides necessary information to them such as previous year results, and information about college. The website could also save applicant data into the database.

2- Report Card Generator

- a. Team Size: 1
- b. Front End : Java

I introduced this website as a project during second year of graduation. The program was developed for giving an essential output without taking any unnecessary input. It emphasises on generating a report card in structured manner with willingness to take marks of 'n' number of students and arrange them in a ranking. The main feature of this report card is, it collects, compare and represent student reports in a tabular format which saves efforts and helps in analysing student's growth.

3- Quiz Game

- a. Team Size: 1
- b. Front End : VB.Net
- c. Back End : SQL Server

The project Quiz Game was different from the ordinary quiz games as it was based on famous quiz show KBC. It contained various lifelines which made the game more interesting. There were 5 levels with 25 questions which took out from different fields and level of difficulty increased with increase in number of level.

4- Hotel Management Application

- a. Team Size: 1
- b. Front End : VB.Net
- c. Back End : SQL Server

This application was made for a hotel and operates in two views. One is for Guest's and the other one is for employees working in that particular hotel. In guest view one can see facilities provided by hotel with a video., Today's

menu, check-in etc. on the others hand employee working there can make changes in today's menu, making an entry, updating status on room whether they are available or acquired and also if there are any changes in the charges for room, employee can change this via same.
